## VIPRO® White Board

**For a modern and attractive presentation platform.**

The VIPRO® White Board is manufactured using a special etched structured surface developed for front projection with a combination of specialist foils in the interlayer.

The VIPRO® White Board is supplied with the ability to use magnets to pin documents to the surface and by using a white board marker pen the presentation just wipes off the surface.

The VIPRO® White Board can also be custom made to enable different types of interactive presentation. It can be supplied with an optical touch frame with various touch points for use as a large tablet.

We can also supply with an eBeam system that captures your hand written presentation to a computer for use later.

The VIPRO® White board is delivered with a TÜV approved mounting set. This spaces the board 12mm off the wall so creating a 'free-floating' screen.

The standard size for the VIPRO® White Board is 90" picture at 16:9 giving a board size of 2000 x 1100\*

The VIPRO® White Board is supplied with a starter kit of 8 magnets.

\* Other dimensions are available on request
