## TEGLA® Gallery glass

### A premium picture glass for artwork.

TEGLA® unilateral extra fine structured picture glass is made from high-quality white glass that produces high colour rendering for the display of the artwork and is an excellent alternative to expensive coated glass.

#### Unique brilliance

TEGLA® Gallery glass achieves its stunning image clarity by combining high-quality white glass and our exclusive complex microstructure etching. This process prevents reflections and produces true high colour rendering.

TEGLA® Gallery glass is an inexpensive high-technology alternative for high-quality image and picture glazing.

#### Unique transparency

TEGLA® Gallery glass has a durable, resistant and completely unreactive surface. Fingerprints and other contaminants are considerably less visible and a lot less problematic to remove when compared with anti-reflective coated glass.

### Durable resistance

TEGLA® Gallery glass has a durable resistant and completely insensitive surface. Fingerprints and other contaminants are considerably less visible and to remove a lot less problematic than with anti-reflective coated glass.

### Innovative production process

TEGLA® gallery glass is manufactured in a high throughput diving cage etching process. The etching tool is designed specifically for our products and meets the most stringent environmental requirements of ISO 14001. We are also certified according to ISO 9001 and have an OHRIS ISO 18000 certified safety management system.

### Technical data

Glass thickness	2 mm (- 0.2)			
Size	820 x 1,600 mm	1,020 x 1,600 mm	1,200 x 1,600 mm	1,200 x 2,000 mm
Box content (approx. 60 sqm)	46 sheets	36 sheets	32 sheets	25 sheets
Gloss value	100 (± 15) - european gloss value measured by 20 °			
Haze value	2 (± 0,5) - large-angle scattering (turbidity)			
Clarity value	90 (± 5) - small-angle scattering (image sharpness)			

Packaging is done with paper line, depending on size and number of pieces in cardboard boxes (at 30 sqm or 60 sqm) or L- or A-frame.

The minimum order quantity is 60 sqm, dispensing of small quantities for extra charge.
